

Monthly report	
Subject:	Climate and Community Proposal
Meeting date:	April 2021
Author:	RJW
Date of report:	7th April 2021

i. Trails and Tours. GPS linked augmented reality to visualize key aspects of weather, landscape and climate change factors. *Discussions are planned with CLP Emma Martin concerning a climate & community related trail/story-map.*

ii. Observatories. Specific locations from which different themes can be experienced. *Discussions with Helen Terry and Tim Crone regarding a COP26 Climate Beacon.*

<https://www.creativecarbonscotland.com/>

We are exploring the possibility of a location a cairn, standing stone or similar as a beacon. This would in due course become the location for an observatory.

iii. The Climate and Community Centre. A central building to house a visitor experience related to the landscape and climate.

iv. A lift. Some futuristic type of lift to get visitors to the top of the Craggs and a shelter at or close to the top.
